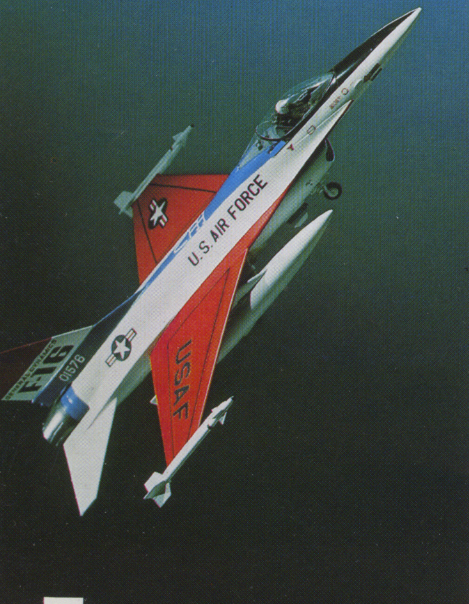
Airplanes

Wilbur and Orville Wright's first successful flight on the sands at Kitty Hawk, N.C. in December 1903 brought to reality man's eternal dream to conquer the air. Since that historic event right up to the present jet age, building scale replicas of famous airplanes has been a subject of interest to aviation enthusiasts of all ages. Originally built from scratch, airplane models were sometimes crude, sometimes highly detailed works of art. Today, through the miracle of plastics, model airplane kits offer a high degree of detail and realism. Monogram's line of model airplane kits ranges from the Wright Brothers' Kitty Hawk to the most modern supersonic jets of today and includes other classics from along the way. Each kit is developed through countless hours of background work and technical research and is an authentic reproduction of the actual airplane.



AIR ACES

These kits are popular with model builders of all ages, many of whom will want to collect the entire series. Most are 1/72 scale, yet fantastically detailed. Molded in authentic colors.

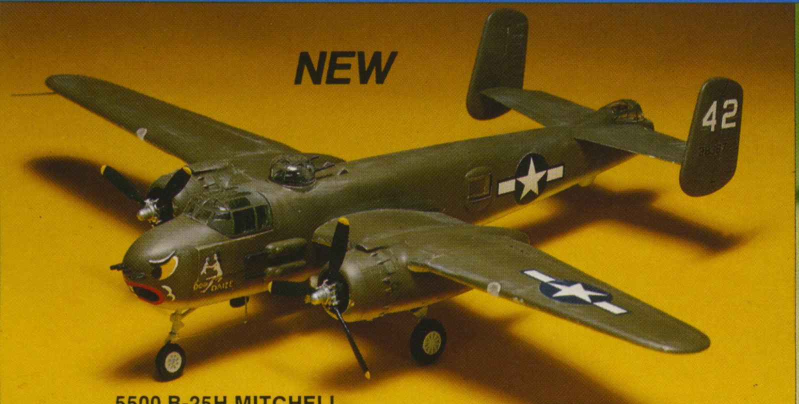
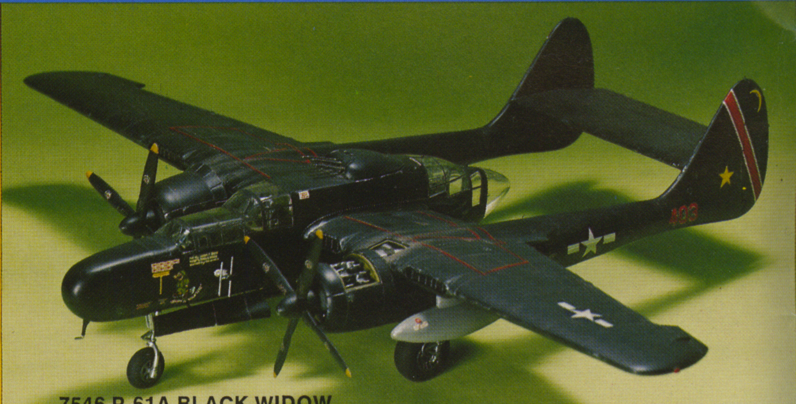
BIG SCALE PLANES

The big feature of these kits is their big size. But they're loaded with lots of other features, too. They're molded in authentic colors and the details will amaze everyone.

BLACK WIDOW P-61
B-17G
FLYING FORTRESS

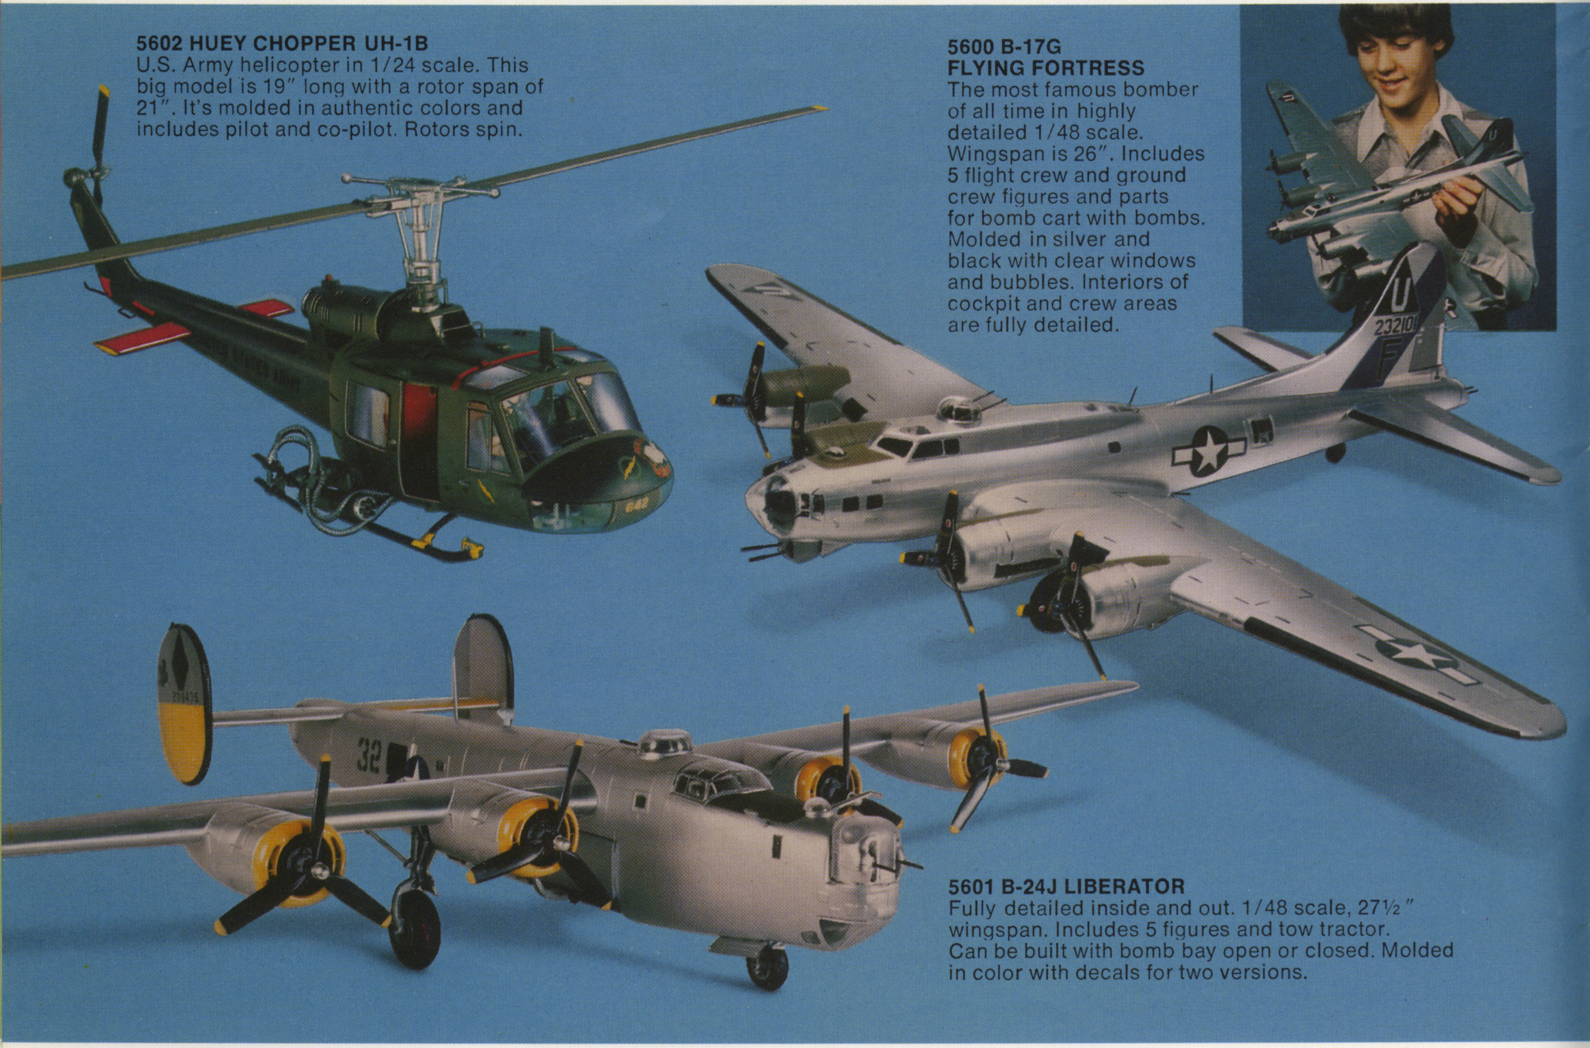


5500 B-25H MITCHELL
This 1/48 scale model of the famous WW II medium bomber is 12¾″ long with a wingspan of almost 17″. Kit includes detailed cockpit, bomb bay and engines and 3 crewmen.



7546 P-61A BLACK WIDOW
This 1/48 scale model is 12¼″ long with a 16½″ wingspan. It has a detailed interior and engine and can be assembled as one of two versions with authentic insignia. Includes 3 figures.

A9543 Air Command Assortment. 6 kits.



5602 HUEY CHOPPER UH-1B
U.S. Army helicopter in 1/24 scale. This big model is 19″ long with a rotor span of 21″. It's molded in authentic colors and includes pilot and co-pilot. Rotors spin.

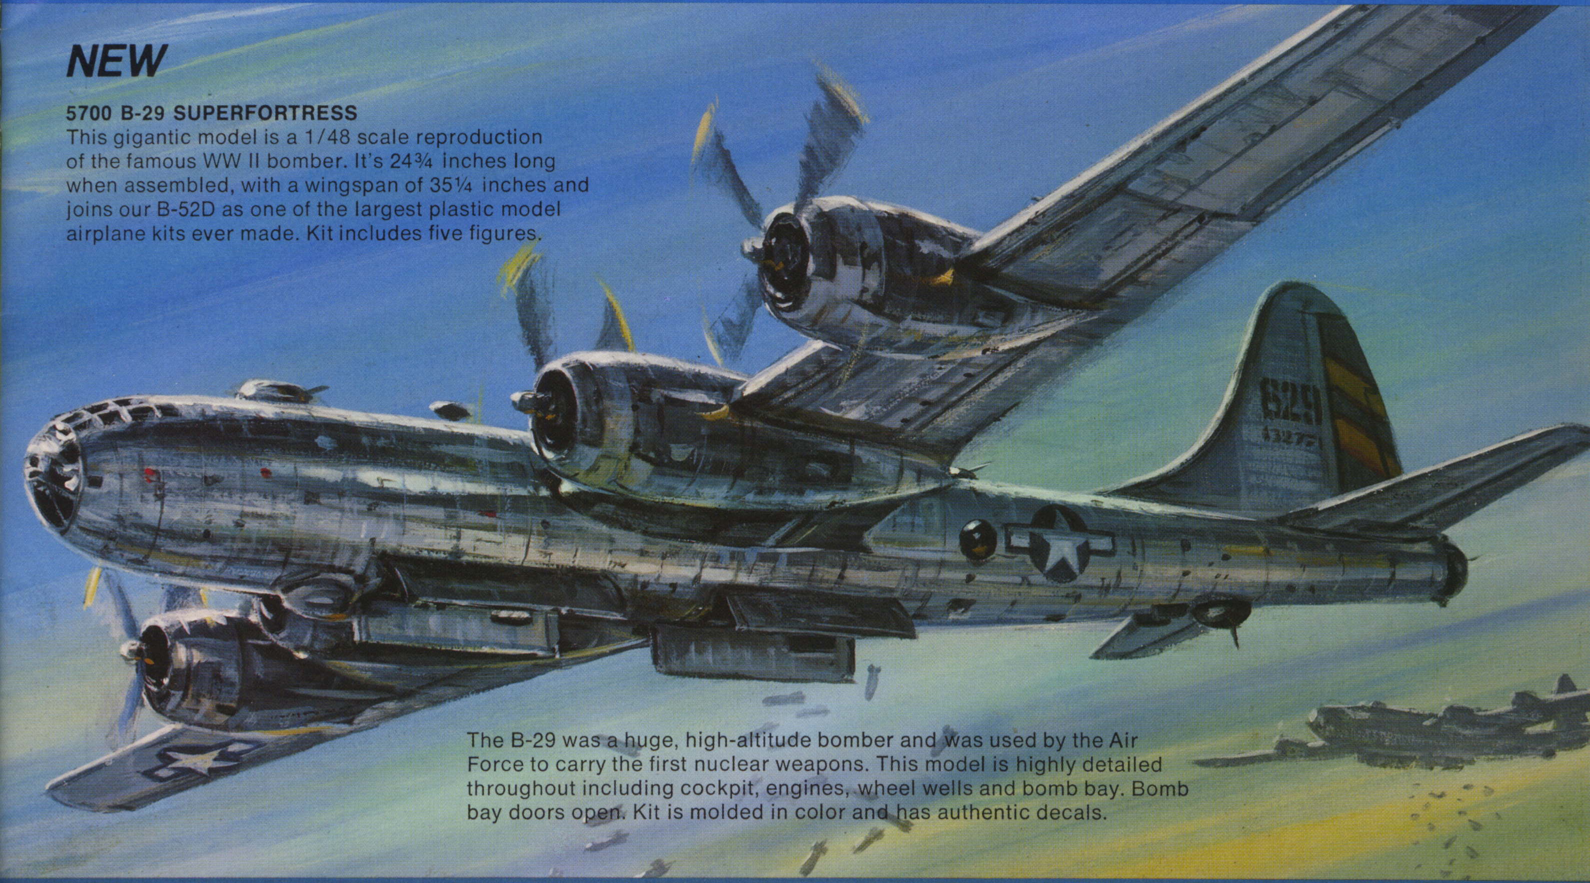
5600 B-17G
FLYING FORTRESS
The most famous bomber of all time in highly detailed 1/48 scale. Wingspan is 26″. Includes 5 flight crew and ground crew figures and parts for bomb cart with bombs. Molded in silver and black with clear windows and bubbles. Interiors of cockpit and crew areas are fully detailed.

5601 B-24J LIBERATOR
Fully detailed inside and out. 1/48 scale, 27½″ wingspan. Includes 5 figures and tow tractor. Can be built with bomb bay open or closed. Molded in color with decals for two versions.

BIG SCALE PLANES

This series includes planes that are favorites of model airplane enthusiasts. The Monogram quality makes each kit a pleasure to assemble and produces a finished model to be proud of.

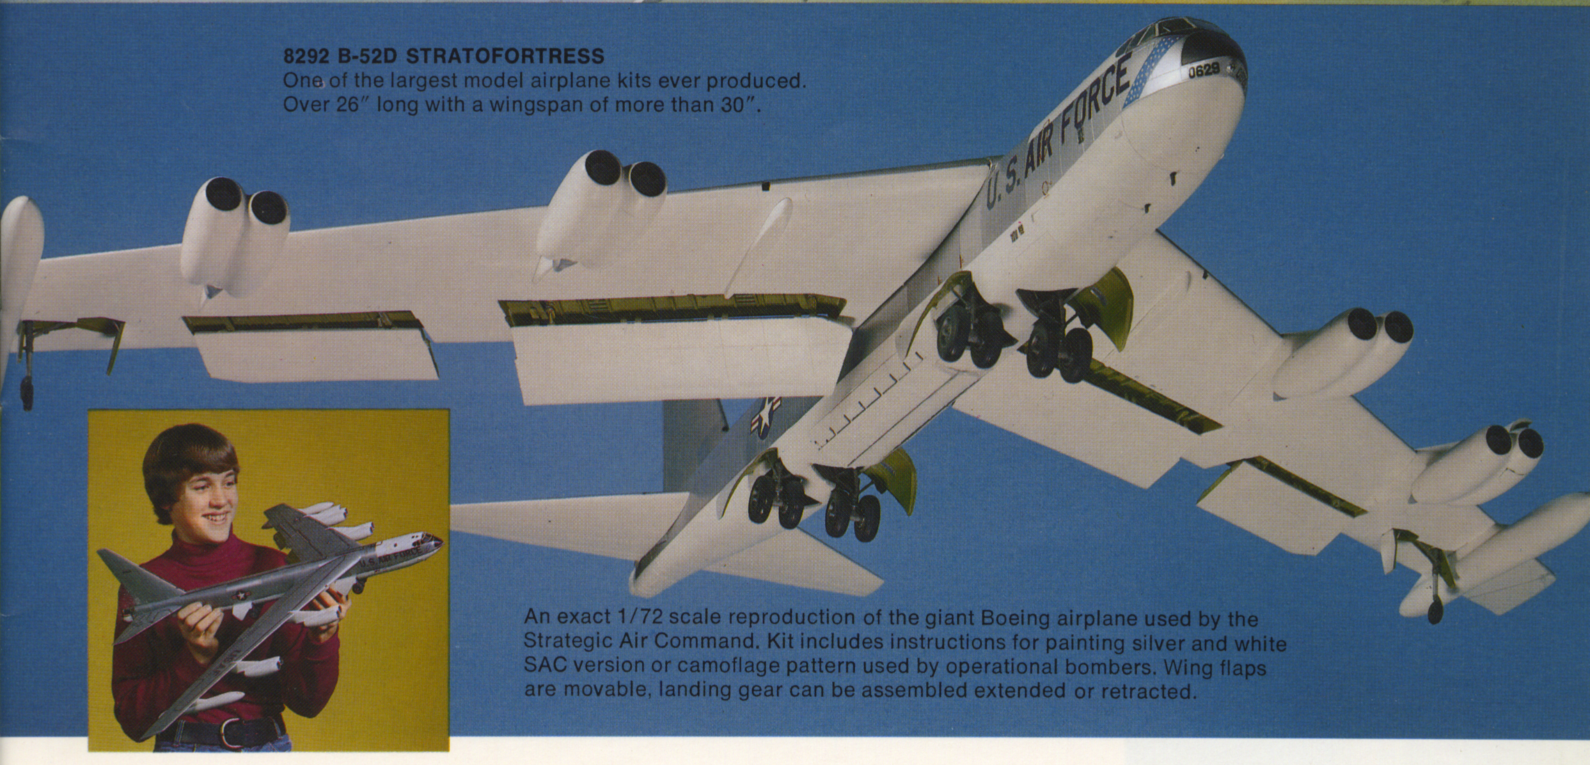
B-52 STRATOFORTRESS
MONOGRAM



NEW

5700 B-29 SUPERFORTRESS
This gigantic model is a 1/48 scale reproduction of the famous WW II bomber. It's 24¾ inches long when assembled, with a wingspan of 35¼ inches and joins our B-52D as one of the largest plastic model airplane kits ever made. Kit includes five figures.

The B-29 was a huge, high-altitude bomber and was used by the Air Force to carry the first nuclear weapons. This model is highly detailed throughout including cockpit, engines, wheel wells and bomb bay. Bomb bay doors open. Kit is molded in color and has authentic decals.

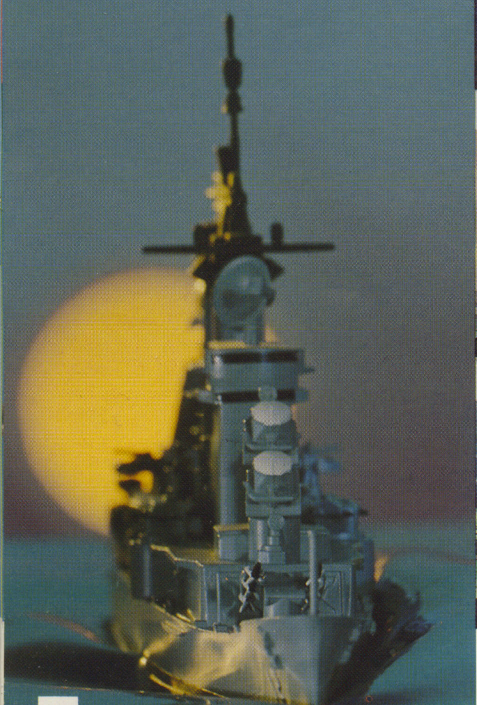


8292 B-52D STRATOFORTRESS
One of the largest model airplane kits ever produced. Over 26″ long with a wingspan of more than 30″.

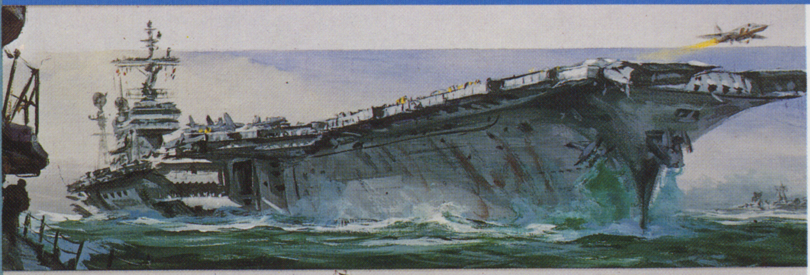
An exact 1/72 scale reproduction of the giant Boeing airplane used by the Strategic Air Command. Kit includes instructions for painting silver and white SAC version or camoflage pattern used by operational bombers. Wing flaps are movable, landing gear can be assembled extended or retracted.

Ships

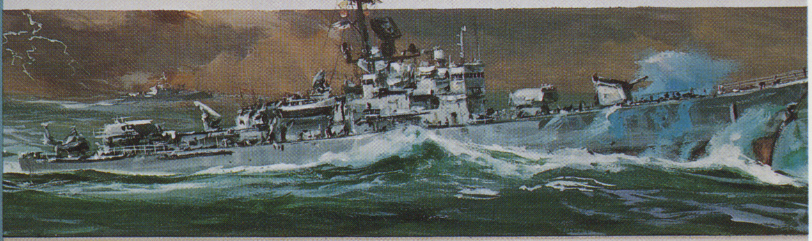
For many centuries, the fascination of the sea has compelled men to build miniature replicas of sailing vessels. In days of old it was common practice for sea captains to while away their spare hours whittling, carving and assembling exact models of the very ships on which they spent a good portion of their lives while at sea. Today's Navy ships are just as exciting and just as fascinating to modern day sea lovers. And building models of famous Navy ships is a hobby that is even more popular today than in years gone by.



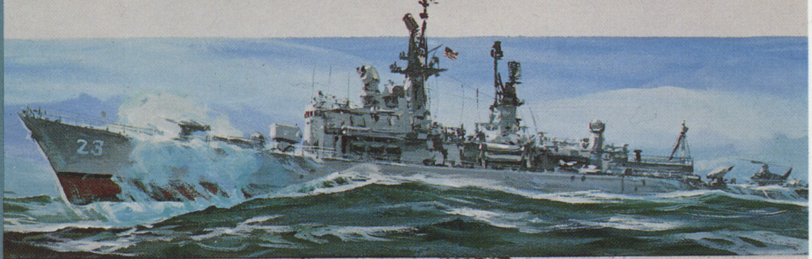
These Monogram kits are authentic reproductions of famous Navy vessels. Each is 16 inches long and mounts on a display stand with a name-plate decal. Highly detailed, they have all the characteristic features of the full size originals. The one-piece hull in each of these kits helps make the model easy to assemble. Packaged in attractive boxes.



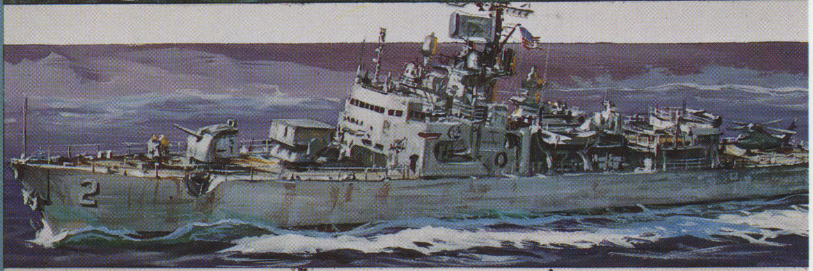
6854 U.S.S. KENNEDY
Attack aircraft carrier. Includes 15 miniature planes. 16″ long.



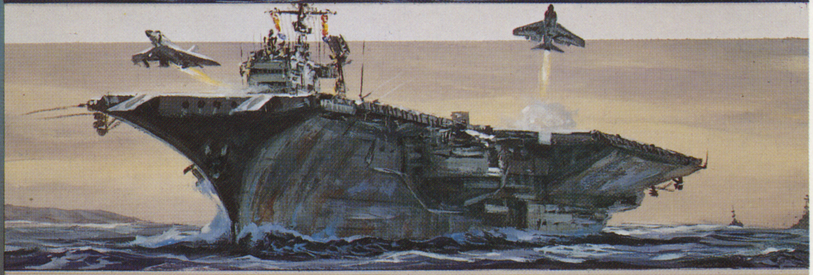
6855 U.S.S. BROOKE
Guided missile destroyer. Includes miniature helicopter. 16″ long.



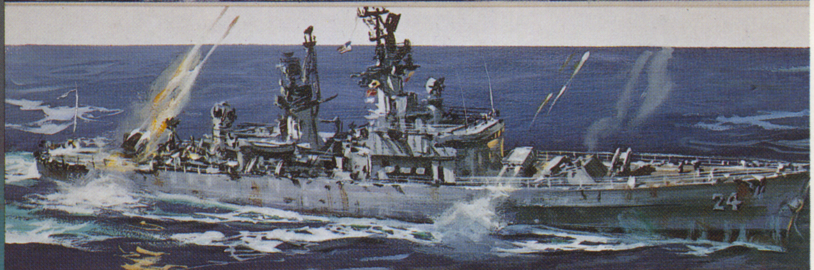
6856 U.S.S. HALSEY
Guided missile frigate. With moveable features. 16″ hull.



8294 U.S.S. RAMSEY
Guided missile destroyer. Gun turret, missile launchers turn. 16″ hull.

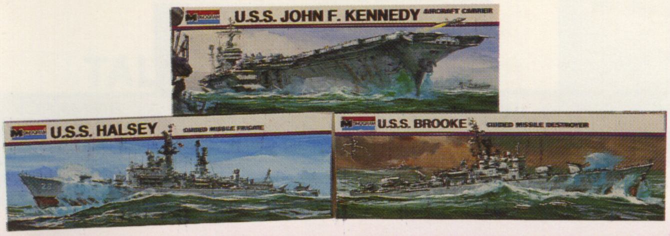


8295 U.S.S. AMERICA
Attack aircraft carrier. With 15 aircraft. 16″ long.



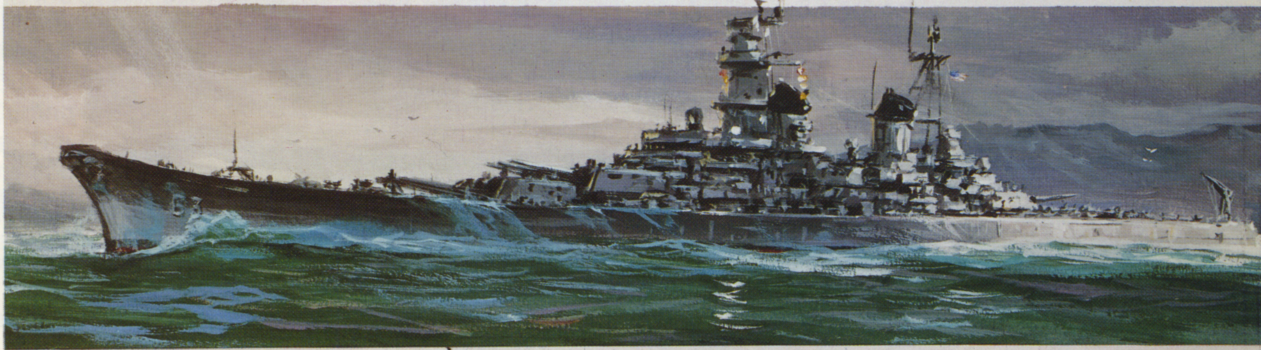
8296 U.S.S. LEAHY
Guided missile frigate. 16″ bow to stern. Missile directors and launchers turn.

A7509 Navy Ship Assortment no. 1. 12 kits.

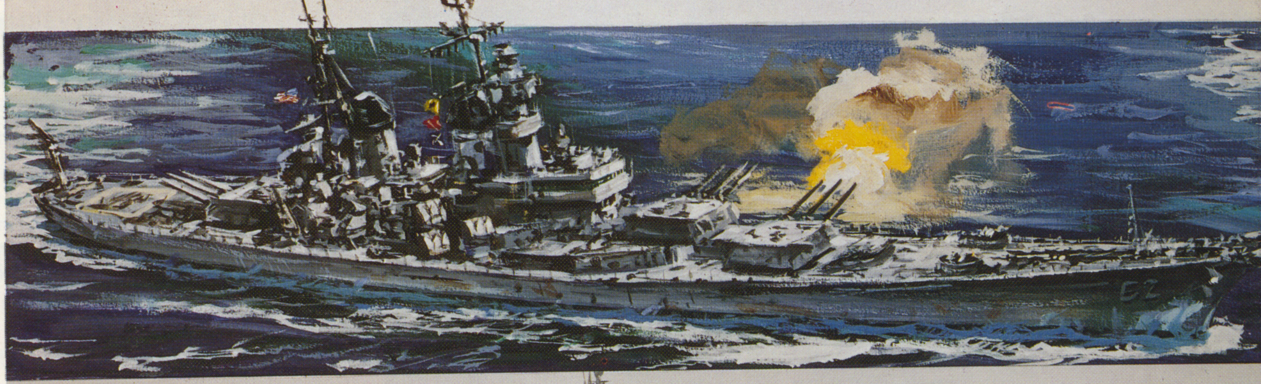


U.S.S. JOHN F. KENNEDY AIRCRAFT CARRIER
U.S.S. HALSEY GUIDED MISSILE FRIGATE
U.S.S. BROOKE GUIDED MISSILE DESTROYER

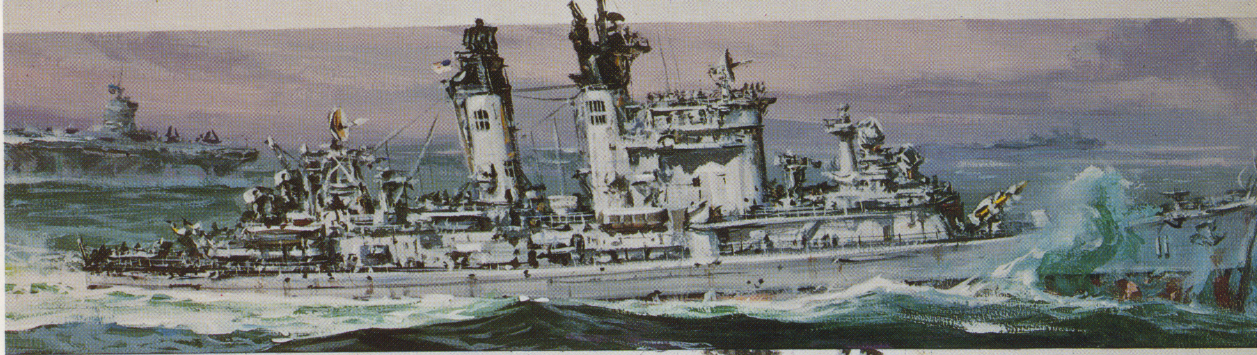
3000 U.S.S. MISSOURI
This model kit of the Battleship BB63 has gun turrets that move in unison with radar finders. Includes observation float plane in scale size. 16″ hull is one piece.



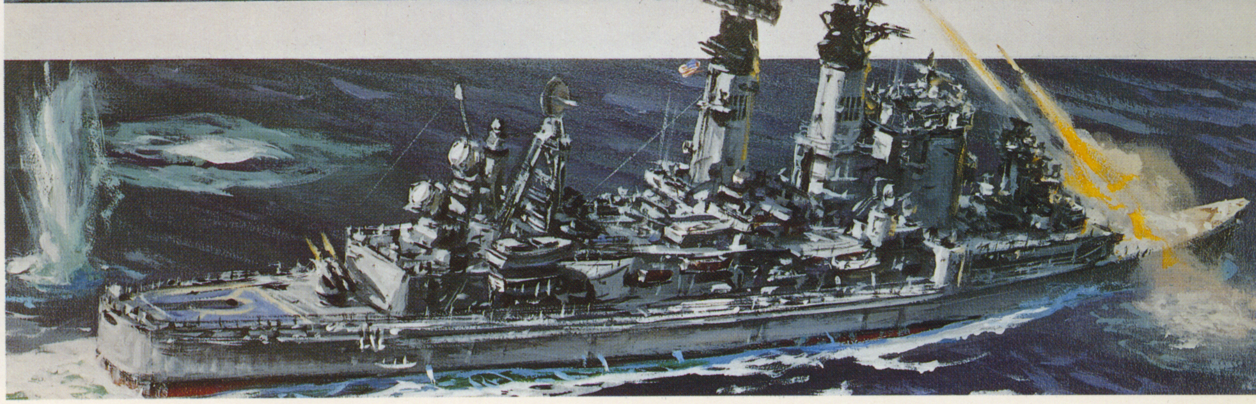
3001 U.S.S. NEW JERSEY
Iowa class Battlewagon BB62. Turn the radar finders and the gun turrets also turn. One piece hull, 16″ long.



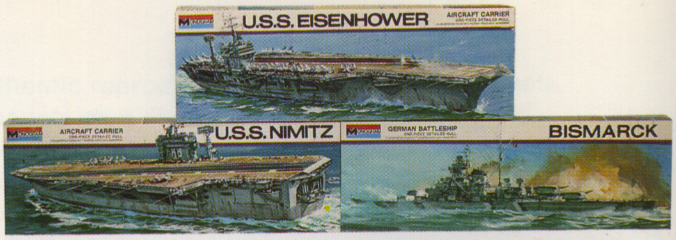
3002 U.S.S. CHICAGO
Guided missile cruiser CG11. Missile launchers move in unison with radar finders. 16″ long, one piece hull. Includes helicopter.



3003 U.S.S. COLUMBUS
This model of CG12, guided missile cruiser, is 16″ long with one piece hull. Includes helicopter. Turn the radar finders and the missile launchers traverse.

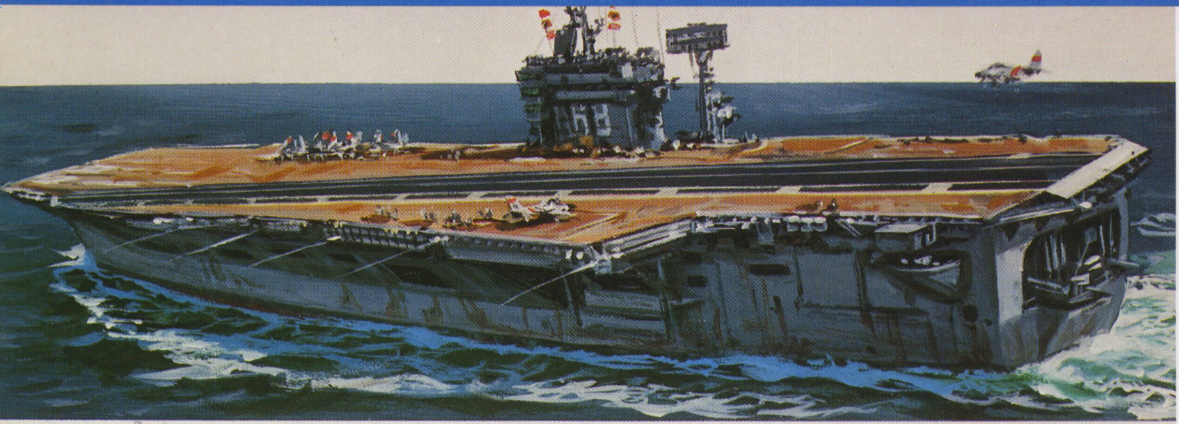


A9300 Navy Ship Assortment no. 2. 12 kits.



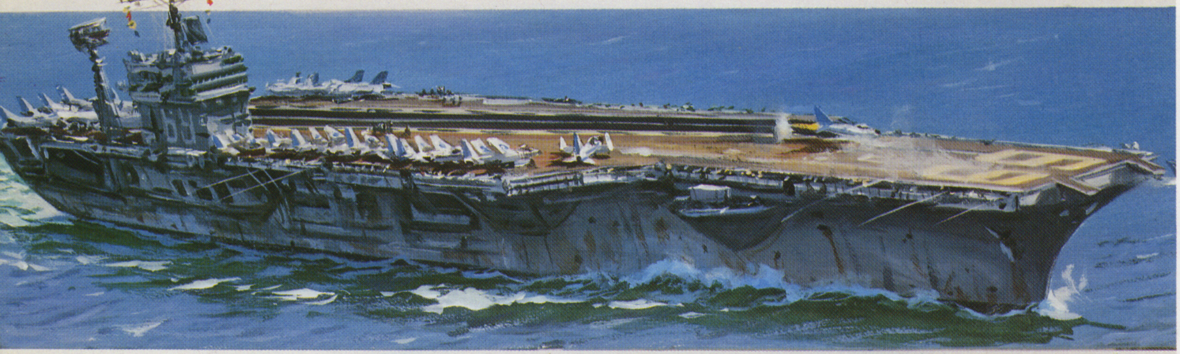
SHIPS

- Molded in grey, 16 inches long.
- One-piece hull for easy assembly.
- Include decals, display stands.



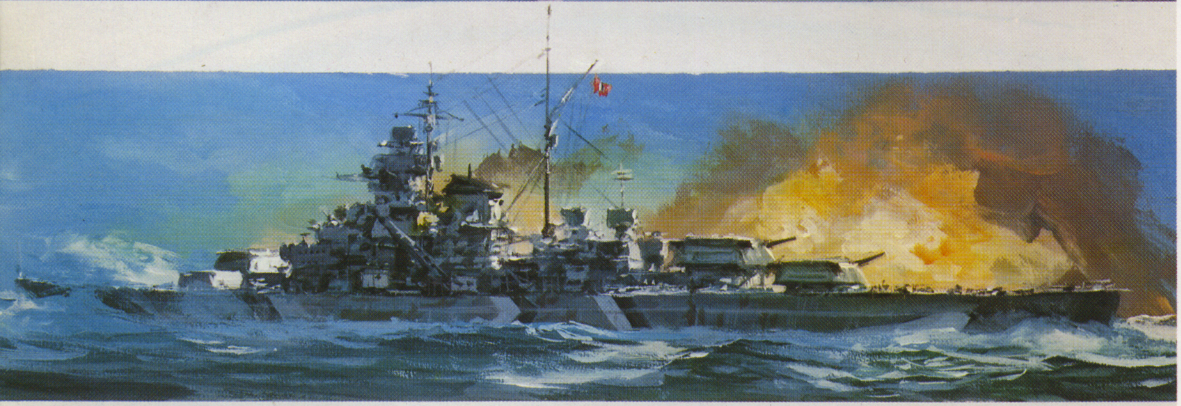
NEW

3004 U.S.S. NIMITZ
Attack Aircraft Carrier CVAN 68. The Nimitz is nuclear powered and is armed with three guided missile launchers. This model kit is a faithful reproduction and includes 20 miniature aircraft.



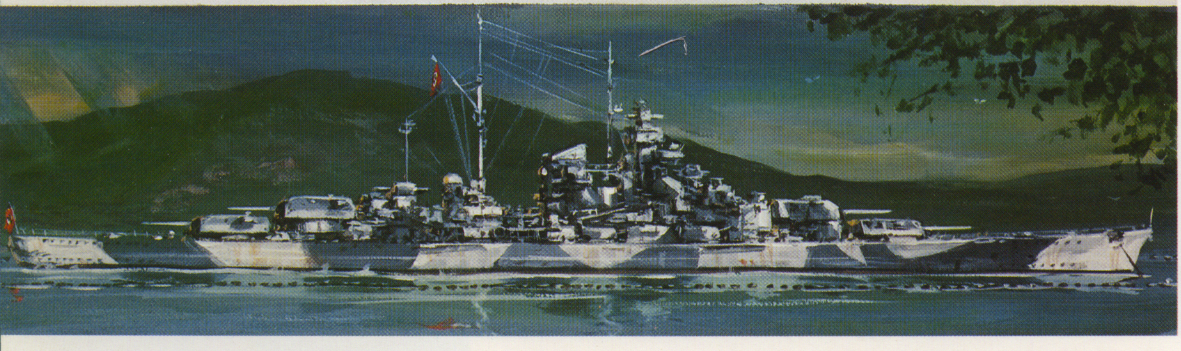
NEW

3005 U.S.S. EISENHOWER
Attack Aircraft Carrier CVAN 69 is nuclear powered and is a sister ship of the U.S.S. Nimitz. Four steam catapults are built into her decks. This kit includes 20 miniature Navy jet fighter planes.



NEW

3008 BISMARCK
The most famous German battleship of WW II. She seemed to be indestructible, but was finally sunk after repeated attacks. This model has turrets that turn and guns that elevate. The kit includes two catapult observation planes.



NEW

3009 TIRPITZ
This German battlewagon was a sister ship of the Bismarck. After sustaining many severe attacks, she was finally sunk by midget subs during WW II. This model has torpedo tubes, turrets that turn and guns that elevate.

A9302 Navy Ship Assortment no. 3. 12 kits.

TALL SHIPS

Old-time sailing ships from Monogram with new-style features in construction and design.

Cutty Sark
HISTORIC FRIGATE
U.S.S. Constitution
"OLD IRONSIDES"

Monogram takes pride in introducing three new highly detailed kits that take the *wait* out of model-ship building. These "Tall Ship" kits eliminate the tedium and increase the enjoyment of ship-building by including mast and spar units that are one piece. The hull is also one piece to avoid problems of fitting two halves together. With this new method of construction, the ship model begins to take shape within the first few steps of assembly and the modeler has something to show for his effort long before the finishing touches are applied.

Over 16″ long when assembled, these Tall Ships are most impressive display pieces. They're molded in black and "natural-timber" beige. Weathered, off-white sails have a pre-formed "billow." Finely detailed ratlines and extra thread are included for complete rigging. Kit includes flag sheet and display stand.

The Tall Ship series includes three of the most famous historic sea-craft of all time . . .

3500 CUTTY SARK, famous clipper ship.

Cars

Since the early days of motoring, thousands of cars of different makes have come and gone. A coveted few have attained the status of "classics" . . . museum pieces to be gazed upon by throngs of admirers. Many old time cars outside of the ranks of the classics are sought by collectors to be restored as "special interest" cars, to be customized as "show cars" or souped up as "Early Iron®" street machines. Auto racing has developed into a sophisticated sport and has become an important part of the motor world.

Early Iron®, show rods, classics, special interest, street machines and drag strip "quarter-milers." Car lovers can choose from many of their favorites in model kit form by Monogram.

DRAG AND STREET MACHINES

This popular series of 1/32 scale cars includes some favorites modified for drag strip performance as well as sport and street machines. All molded in color.

A2609 Colossal Car Assortment. 4 kits.

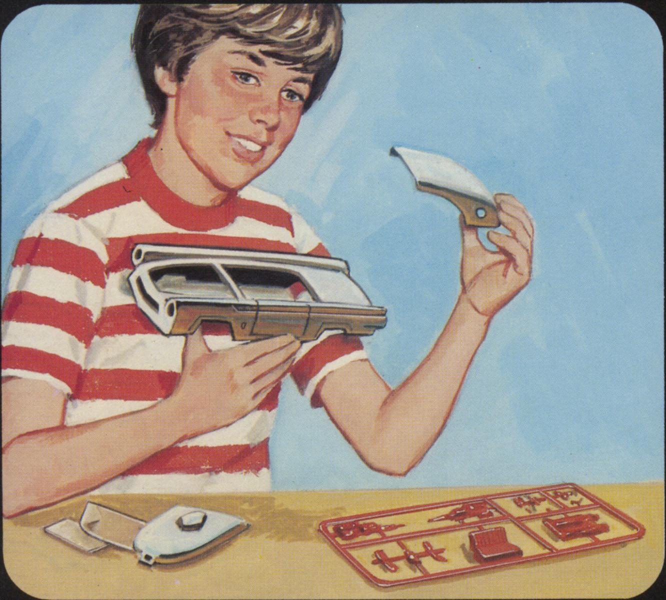
METAL MASTER$^{T.M.}$

1/24 scale model kits with DIE CAST METAL body parts.



The magnificence of metal . . . in model kit form. The minute you feel the weight of a *Metal Master*$^{T.M.}$ die cast model, you'll know that it's something special. *Metal Master*$^{T.M.}$ kits have the look, the feel and the finish that only metal can give. Beautifully detailed throughout, these models, with their faithfully reproduced bodies, chassis, interiors and engines, are jewel-like miniatures of the actual full size sports cars.

All the body parts in *Metal Master*$^{T.M.}$ kits are die cast. They're clean and smoothly finished, making the kit a pleasure to assemble and assuring a perfect fit. The body can be painted, polished and waxed just like a full size car. The plastic parts are molded in color and there are many gleaming plated parts in the kits.

The finished display piece will impress anyone who sees it. The detail, realism and *feel* of the model will be especially appreciated when it is picked up to be closely studied. Three of the most popular sports cars are available in this 1/24 scale series. Many model car enthusiasts and collectors will want all three *Metal Master*$^{T.M.}$ kits.

Armor

Building and painting scale models of historic armor weapons and vehicles is a unique hobby with many military enthusiasts. A skilled hobbyist can paint a 1/35 scale figure in lifelike realism including detailed facial features and uniform insignia. Tanks and other vehicles can be weathered and "battle-torn" to make them look authentic. Many military modelers will spend countless hours in research to get the proper historic background for the models they build, to be sure that all the details are accurate. Historic reference material also provides suggestions for building the assembled model into a diorama, which may often be a reproduction of an actual situation. Monogram kits are favorites of armor enthusiasts because of the highly realistic details in the models.

SNAP TITE® MODEL KIT

Snap Tite®

THEY SNAP TOGETHER!
NO GLUING OR PAINTING!

Snap Tite® model kits are specially engineered with parts that SNAP together and stay together . . . without glue. Molded in colored plastic, they have stick-on decorations, so the model can be completely assembled without painting if desired.

Designed for young and beginning modelers, Snap Tite® kits are also popular with many older and more experienced model builders who want a change of pace. The subject matter ranges from the wild funny cars to the realistically detailed airplane and armor kits. And they're packed in specially designed, eye-catching Snap Tite boxes.

MONOGRAM®

Flying Division

FAST, EASY ASSEMBLY. No cutting, no carving, no painting. The finished parts are ready to assemble. All you need is some ordinary white household glue and a couple of hours. Prop and nose unit is pre-assembled. One-piece wing is pre-shaped. Stick-on decorations are pre-cut. Two-piece body is pre-shaped.

EXCELLENT FLYABILITY. Long, smooth, quiet flights. Aeronautically engineered with freewheeling prop to reduce drag and pre-set thrust bearing to prevent stalling.

SUPER DURABILITY. Made of tough, special materials, Speedee-Bilt® planes are built to last. Light as a feather for better flying, yet strong enough to survive a lot of launchings and landings.

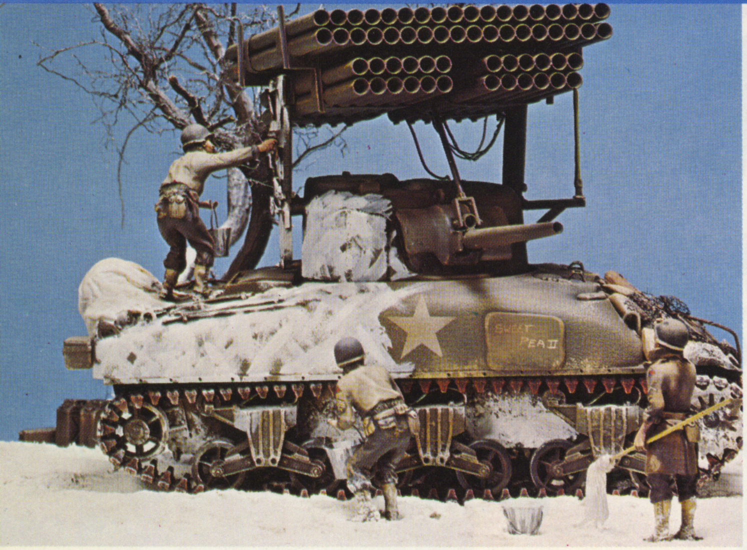
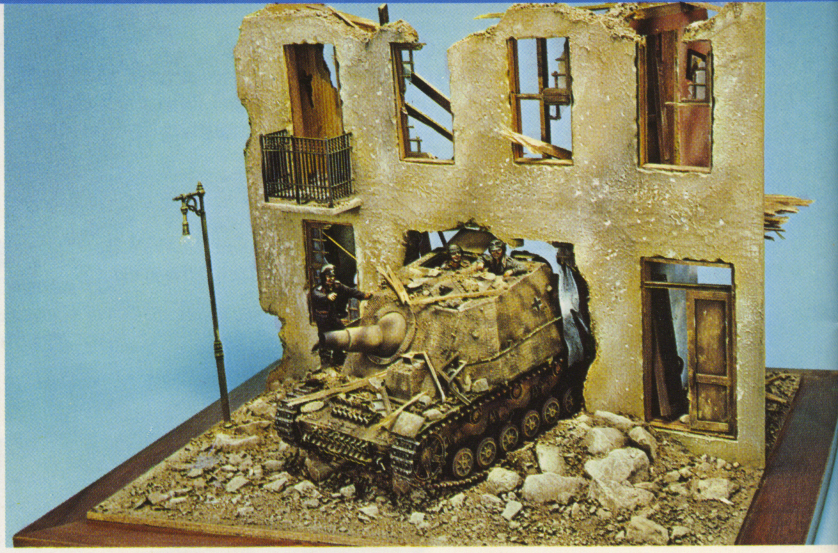
DIORAMAS

Creating dioramas for displaying models has become a popular extension of the model building hobby. Monogram kits are highly detailed, and the assembled model can be painted with a "weathered" appearance and mounted in an appropriate setting with artificial landscaping and "battle-scarred" structures.

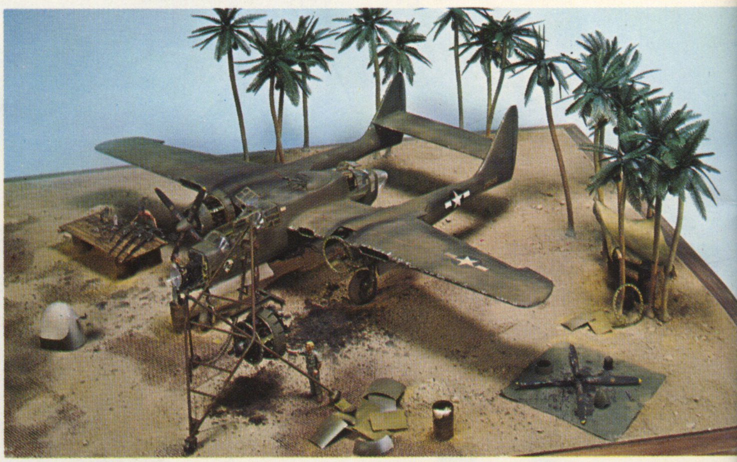


A detailed diorama can show your model in a realistic situation.

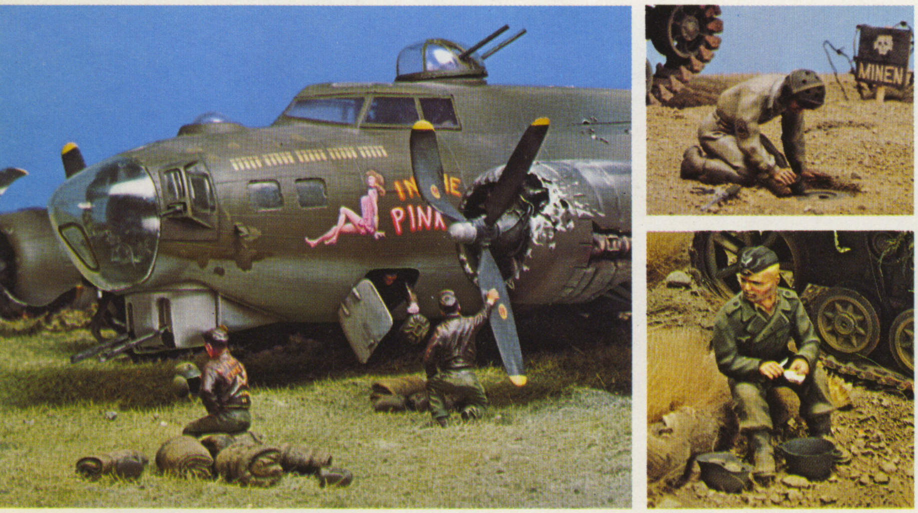


Vehicles in combat take a terrific beating.

Mounting your vehicle on a landscaped base adds interest to the model.



Imagination is a key ingredient in building dioramas.



Clever little touches can do much to enhance the fascination of your model.

Tarpaulins, ammo boxes and bedrolls add realism.

MODEL BUILDING TIPS

Although model building procedures vary from one hobbyist to another, certain basic guidelines have been established over the years. It is well for the advanced model builder as well as the beginner to watch the hobby magazines for articles that may offer tips on new methods and techniques or introduce new tools or hobby materials.

Above all, you should remember three very important suggestions:

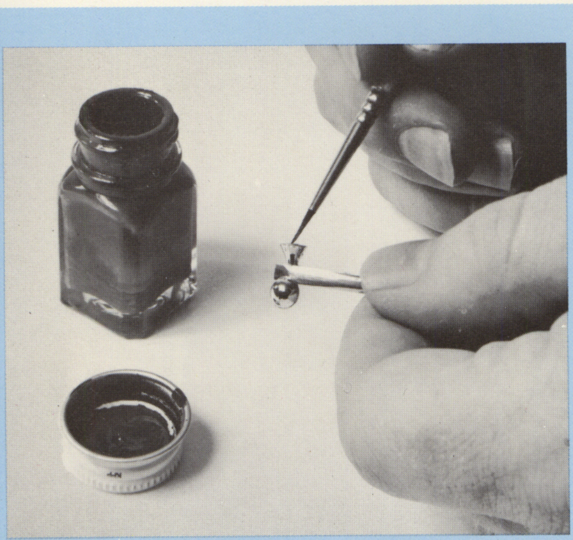
1. Keep your work area clean. Lay newspapers down before you begin, to avoid marring the table top with stray cement, paint or decal scraps. Keep unneeded material out of your way. Keep your tools organized and keep plastic parts in order.

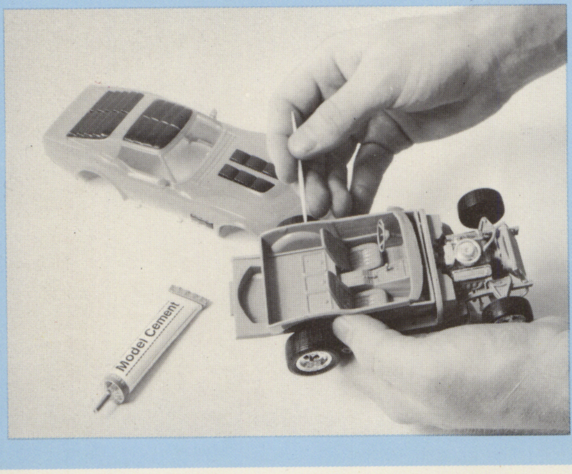
2. Follow the instructions. Read the instruction sheet thoroughly and study the illustrations before you begin. Then follow each step in order as you assemble your model.

3. Start out with the finest model kits available. Monogram kits are engineered with precision detail for parts that fit, produced with high standards of quality and molded in colors appropriate for the item.

For successful model building, there are other tips to keep in mind.

- Read painting suggestions before assembly. Some parts should be painted before cementing.
- Do not remove parts from "trees" until ready for use. Each part is identified by a number. If some of the smaller parts are to be painted, they are sometimes easier to paint while they are still attached to the tree.
- CUT parts from trees, preferably with small diagonal cutters or a razor knife Breaking off may damage a part. Be sure to cut, scrape or file excess plastic from parts at the point where they were joined to the tree.





- Check fit of part before cementing into place.
- Apply cement with a toothpick on small areas. Very little cement is needed to hold parts together. Too much cement can damage your model.
- Scrape plating from plastic parts where they require cementing. This is an important step which should not be neglected. Cement will NOT stick to plating. On small parts, the plating can be removed while the part is still attached to the tree.
- Don't rush. Take time to enjoy your hobby, and to do a careful, thorough job. Be sure to allow time for cement and paint to dry between steps.

What tools do you need?
Certain tools have become standard in model building, but with experience, hobbyists usually develop their individual preferences beyond these recommendations. The tools that should be available include a hobby-craft knife, two or three small Swiss files, very fine sandpaper, two or three fine-pointed brushes plus a wider brush for painting larger areas, small scissors, tube of cement or liquid cement, spring clothespins, tweezers, and transparent tape for masking. Plastic model paints are available in small bottles or in spray cans. Toothpicks should also be kept handy.
